

Vevo3000

Offers elegant slim sightlines coupled with highly engineered hardware and ideal for residential applications.

System Features:

- Elegant slim sightlines allow more light into the building and give a pleasing appearance.
- Attractively styled round-edge profiles on sashes.
- High security multi-point lock.
- Colour matched handle/lock options.
- Highly engineered and robust hinges.
- Specially designed stainless steel rollers give smooth and easy operation.
- Dual colour option available.
- Aluminium low thresholds available, but not suitable for most domestic applications.
